MEMORANDUM

To: Board of Education
From: Alan Kearsley, Business Administrator
Paul Schulte, Executive Director Auxiliary Services
Subject: One-time Public Education Capital and Technology Funds

H.B. 475 from the 2022 Legislative Session allocated one-time funds to public education for capital and technology needs. The estimated allocation for Salt Lake City School District is \$2.4 million.

It is proposed that these funds largely be used for school safety improvements, including, but not limited to vestibules, glass safety coatings, and entrance redesigns to enhance school safety.

We are seeking board feedback on the use of these funds, and approval to move forward with using the majority of these funds for school safety improvements.
